23. Problem: (use additional Sheets if necessary) NCR 40736 is based on draft ticket OD_S5_05, which was never baselined in the VDB. The ticket draft was made an attachment to the NCR. The VDB now supports mapping tickets to NCRs so this ticket should be added to the VDB so that the requirements implemented by the NCR can be assigned identifiers and will be included in reports of OMS requirements. This ticket now supersedes the draft ticket attached to NCR 40736, which should be removed from the NCR and replaced with a reference to the baselined VDB ticket.						
24. Proposed Solution: (use additional sheets if necessary) Add the attached ticket OD_S5_05, Interface SCLI with OMS, to the VDB. Set test_map = N for all criteria in this ticket, as verification was done within the NCR process.						
25. Alternate Solution: (use additional sheets if necessary)
